

All Terrain Stretcher (API)

Community Design number: 001409809-0001 & 0002

The API Stretcher is a revolutionary rescue stretcher designed to provide safe handling of a casualty in an emergency rescue situation.

- Ideal for casualty recovery in tight or of difficult to reach places
- Easily stowed on a vehicle, boat, helicopter or aircraft
- Can be carried, dragged or tobogganed over various terrains, including snow, sand, marsh and mudflats
- Can be lifted by a helicopter, hauled in the horizontal or vertical plane
- supplied with an optional cover to provide all round protection from exposure
- Minimal training, servicing and maintenance costs

Used For:

- Crisis rescue
- Flood Rescue
- River Rescue
- Flooded coastal and urban areas
- Casualty Recovery
- Shallow Water rescue
