

A highly robust and durable steel twin 8 bar controller with recessed couplings at the rear and recessed pressure gauges for each outlet.

Designed for use with high pressure lifting bags the inflation & deflation can be precisely controlled by the pressure sensitive 'deadman' joysticks.

FEATURES

- Steel Housing with 2 outlet ports and 1 inlet port
- Nylon adjustable carrying/handling shoulder strap
- Steel housing offers protection for vulnerable components
- Independent control for each cushion or bag using levers
- Levers are supplied with spring loaded "deadman" automatic return to off control
- Relief valve is pre-set to the pressure of the inside regulator

USED FOR

- Crisis rescue
- Road traffic accidents
- Lifting light aircraft and vehicles

TECHNICAL DATA

STEEL CONTROLLER

Product Code	CO0026
Type	8 bar
Max. Outlet Pressure (bar)	8
Size (cm)	23.3 x 20 x 15.5
Weight (kg)	5.5
Outlet Coupling	S. 25 Female
Inlet Coupling	S. 26 Female
Recommended Regulator	8 bar

Alternate couplings available on request
