

MFC International Catch Bags are designed to be used in conjunction with our low-pressure high-lift air bags during the up-righting of vehicles or trailers.

Catch Bags prevent a rapid and dangerous decent, which prevents further damage to the vehicle or object being righted, and allows for a safer environment for the recovery team.

FEATURES

- Quick setup, inflation and deflation
- Webbing loops assist with lifting and positioning the bags
- Strong and durable
- Replaceable protective cover
- Inflation sock with Camlock 1½" plug coupling
- Multiple Catch Bags may be used for larger vehicles or objects

USED FOR

- Slow decent of vehicles during uprighting

SUPPLIED WITH

- Repair Kit
