

The MFC 170N Life Jacket is designed to be easy to don, comfortable and unrestrictive to wear when performing heavy manual work.

The 170N Life Jacket can also be fitted with a fire retardant cover for wear performing tasks such as welding (PVC, Nylon or clear painters covers are also available).

The 170N Life Jacket incorporates an interlocking bladder which self-rights the wearer in under five seconds, (even if they are unconscious) providing an effective wave barrier which prevents water from being channelled into the wearers airways.

FEATURES

- 170N buoyancy
- ISO 12402 approved
- Halkey Roberts inflation system
